Ready to Launch! LAB's Robotics Camp

Established in 1927, Louisiana Association for the Blind (LAB) is dedicated to improving the quality of life for the blind through training, services and employment. As a part of National Industries for the Blind, LAB participates in the nation's AbilityOne program, providing quality products to the government made by Americans with visual and other severe disabilities.

LAB produces over 250 different products such as copy paper, peel-and-stick non-skid, abrasive sanding cloths and many more. Their direct labor workforce is made up of over 80% visually impaired employees.

In addition to providing jobs LAB has a Low Vision Rehabilitation Center that provides training and services for people of all ages with low vision blindness.

Audra Muslow Hicks joined LAB in 2015 and is their Community Development Manager. She came to LAB with over a decade of experience in public relations and fundraising for various non-profit agencies in Northwest Louisiana, and is an active member of the Junior League of Shreveport-Bossier.

Paul Harris Fellowship Awarded

Last Tuesday, past club president Charlotta Nordyke awarded a Paul Harris Fellowship to her co-worker Megann McDaniel. Megann is a Rotary Foundation alumni as she was a Group Study Exchange team member who traveled for six weeks with a Rotary program to Thailand several years ago.

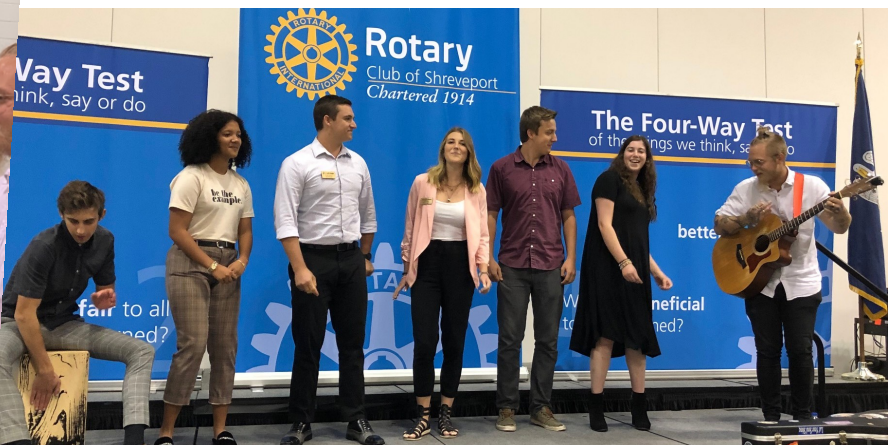

Charlotta planned this award a number of years ago but the award certification was only recently received. Megann is a frequent visitor to our club.
